I guess i thought it was going to be funny. Or at least more interesting. Random collection of pictures, some Photoshoped some not. Just really some stuff in a book.

It's not meant to be a book of critically reviewed photography. It's a book of pictures that might make you think when you're stoned. I bought this as a gift but thought it was a cute conversation piece which is what's it's meant to be. Your friends pick it up and laugh or they look at it when you pass the bowl. There's a cat head floating on the cover and food...it's silly and amusing. The perfect way

to acknowledge that you're cool with your friend's weed habit even though you don't partake.

Looking at these images always cheers me up. Too bad that the Photoshopping in a few of the images is rather amateurish, but it doesn't diminish from the beautiful photos of nature that constitute the real heart of this book. I love it! When I get tired of words, this is the first book of images I pick up to send my mind to a different dimension. Many thumbs up!

This book is very funny and amusing. I would recommend it to any kind of person who likes psychedelic colors and unusual associations of image. Great experience!

kind of weird, but my friend liked it

The best thing about this book is that everyone, literally everyone who enters your house will pick it up and marvel at it -- whether under the specified influences or not. It's novel and it's fun. Why not?

Bought this book for my stoner girlfriend for her birthday and she loved it. It was in perfect condition as well

There are a few interesting pictures, but most of them are landscapes that you can find on the internet. Not worth the money.
