Customer Reviews

Franko Maps Ltd. is known for producing the best dive and snorkel maps and guides for the Caribbean and other locations worldwide.

The pictures might be useful for IDing all those fish if I could see them without a magnifying glass. The card is about 3.5" x 5", which makes each image the size of my little toenail. Good luck with reading the text at all!

Its very limited in term of the use for snorkeling. We went snorkel at the natural pool and only can identified less than 6 fish on the chart. Its very disappointing. They should update this chart.

This is a great chart you can look up any fish that you saw snorkeling it is small enough to take with you when you dive in Aruba

Super cool guide to Aruba fish, my daughter adores it! Very detailed!

Good card...smaller than expected. Covered all the fish and creatures I might see in Aruba. Good

thing it looks larger underwater, ha.

Nice little card.

Nice little guide to local fish.

Good for kids.
